

Gig Harbor Fire & Medic One

Changes to Allowable Burn Period

Coinciding with the Department of Natural Resources regulations on allowable burning periods, Gig Harbor Fire & Medic One is updating the policies for-burn permits. Effective immediately, allowable burn periods will be as follows:

- January 1 through June 15
- October 15 through December 31

This change is driven by fire safety concerns and emergency resource availability.

This is different than a burn ban. A burn ban can still be imposed based on current conditions for air quality or fire safety reasons. Please continue to verify that there is no burn ban in effect during the above allowable burn periods.

Please feel free to call us at 253-851-3111 if you have any questions.

Thank you,

Gig Harbor Fire & Medic One
