**THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE
USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION.
PLEASE REVIEW IT CAREFULLY.**

Purpose of this Notice: Pierce County Fire District #5 is required by law to maintain the privacy of certain confidential health care information, known as Protected Health Information or PHI, and to provide you with a notice of our legal duties and privacy practices with respect to your PHI. This Notice describes your legal rights, advises you of our privacy practices, and lets you know how we are permitted to use and disclose PHI about you.

We are also required to abide by the terms of the version of this Notice currently in effect. In most situations we may use this information as described in this Notice without your permission, but there are some situations where we may use it only after we obtain your written authorization.

Uses and Disclosures of PHI: Pierce County Fire District #5 may use PHI for the purposes of treatment, payment, and health care operations, in most cases without your written permission.

Examples of our use of your PHI:

For Treatment: This includes such things as verbal and written information that we obtain about you and use pertaining to your medical condition and treatment provided to you by us and other medical personnel (including doctors and nurses who give orders to allow us to provide treatment to you). It also includes information we give to other health care personnel to whom we transfer your care and treatment, and includes transfer of PHI via radio or telephone to the hospital or dispatch center as well as providing the hospital with a copy of the written record we create in the course of providing you with treatment and transport.

For Payment: This includes any activities we must undertake in order to get reimbursed for the services we provide to you, including such things as organizing your PHI and submitting bills to insurance companies (either directly or through a third-party billing company), management of billed claims for services rendered, medical necessity determinations and reviews, utilization review, and collection of outstanding accounts.

For Health Care Operations: This includes quality assurance activities, licensing, and training programs to ensure that our personnel meet our standards of care and follow established policies and procedures, obtaining legal and financial services, conducting business planning, processing grievances and complaints, creating reports that do not individually identify you for data collection purposes, fundraising, and certain marketing activities.

Reminders for Scheduled Transports and Information on Other Services: Pierce County Fire District #5 may also contact you to provide you with a reminder of any scheduled appointments for non-emergency ambulance and medical transportation, or to provide information about other services we provide.

Use and Disclosure of PHI Without Your Authorization: Pierce County Fire District #5 is permitted to use or disclose PHI *without* your written authorization, or opportunity to object, in certain situations, including:

- For use in treating you, in obtaining payment, or in other health care operations;
- For the treatment activities of another health care provider;
- To another health care provider or entity for the payment activities of the entity that receives the information (such as your hospital or insurance company);
- To another health care provider for health care operations of the entity that receives the information as long as the entity receiving the information has or has had a relationship with you and the PHI pertains to that relationship;
- For fraud and abuse detection or for activities related to compliance with the law;
- To a family member, other relative, or close personal friend or other individual involved in your care if we obtain your verbal agreement to do so or if we give you an opportunity to object to such a disclosure and you do not raise an objection. We may also disclose health information to your family, relatives, or friends if we infer from the circumstances that you would not object. For example, we may assume you agree to our disclosure of your personal health information to your spouse when your spouse has called the ambulance for you. In situations where you are not capable of objecting (because you are not present or due to your incapacity or medical emergency), we may, in our professional judgment, determine that a disclosure to your family member, relative, or friend is in your best interest. In that situation, we will disclose only health information relevant to that person's involvement in your care. For example, we may inform the person who accompanied you in the ambulance that you have certain symptoms and we may give that person an update on your vital signs and treatment that is being administered by our ambulance crew;
- To a public health authority in certain situations (such as reporting a birth, death or disease as required by law, as part of a public health investigation, to report child or adult abuse or neglect or domestic violence, to report adverse events such as product defects, or to notify a person about exposure to a possible communicable disease as required by law);
- For health oversight activities including audits or investigations, inspections, disciplinary proceedings, and other administrative or judicial actions undertaken by the government (or their contractors) by law to oversee the health care system;
- For judicial and administrative proceedings as required by a court or administrative order, or in response to a subpoena or other legal process;

- For law enforcement activities in limited situations, such as when there is a warrant, or when the information is needed to locate a suspect or stop a crime;
- For national defense or security and other special government functions;
- To avert a serious threat to the health and safety of a person or the public at large;
- For workers' compensation cases or to comply with workers' compensation laws;
- To coroners, medical examiners, and funeral directors for identifying a deceased person, determining cause of death, or carrying on their legal duties;
- If you are an organ donor, we may release health information to organizations that handle organ procurement or organ, eye or tissue transplantation or to an organ donation bank, as necessary to facilitate organ donation and transplantation;
- For research projects, but this will be subject to strict oversight and approvals and health information will be released only when there is a minimal risk to your privacy and adequate safeguards are in place in accordance with the law;
- We may use or disclose health information about you in a way that does not personally identify you or reveal who you are.

Any other use or disclosure of PHI, other than those listed above will only be made with your written authorization, (the authorization must specifically identify the information we seek to use or disclose, as well as when and how we seek to use or disclose it). **You may revoke your authorization at any time, in writing, except to the extent that Pierce County Fire District #5 has already used or disclosed medical information in reliance on that authorization.**
